

Response to Receiving Copy of *Raw Milk Rewards* Article in *Acres USA* 2012

Lauren,

What a wonderful article! It sure turned out nice and you made us sound really good. So complete! Ryan even got a little emotional at the end when you talked about a possible third generation farmer. As Ryan said, it's nice to take a step back and realize what a neat thing we are doing and life we are leading. Thank you for all your hard work in putting this together!
